

Accessories for Guns

For Use With Sand Injectors Up To a Maximum Pressure of 11,600 PSI (800 bar)

Sandblasting device for connection to High Pressure-Guns KSP500 and KSP1200

	<u>Part No.</u>
• Sandblasting Head (Flat jet version)	7000875
• Threaded connection 1/2" BSP female	7000876
• HP-Nozzle Form HM 15° (\varnothing dependent on flow rate and working pressure)	On Request
• Sand suction lance	7000873
• Sand suction hose 32.8 ft. (10m)	7000874

Adapter for threaded connection

• Double nipple 1/4" BSP to 1/2" BSP for High Pressure-Gun KSP500	5040220
• Reduction fitting M 14x1.5 LH female to 1/2" BSP male for High Pressure-Gun KSP1200	7009463

For working underwater

• Underwater gun tube	1010182
	
• Underwater sand injector	1010185
	

Additional with:

• HP-Gun handle with valve for KSP1200	7009460
• Fitting for High Pressure-Gun and underwater gun tube or underwater sand injector	7009462

Required nozzles are not included!

For working underwater up to 17,400 PSI (1200 bar)

• Underwater gun tube	7013807
• High Pressure-Gun handle with valve for KSP1200	7009460

Required nozzles are not included!
