BUILT TO LAST

KAMAT high pressure pumps are available in electric driven and diesel-driven units in both stationary or mobile design. The pumps can be used in a wide range of applications and industries and have a power range between 15 and 740 HP. Pumps are available with solid shaft for belt drive, direct drive and with integral gearbox units. Mobile units can also be built for indoor applications. Pumps can be customized with a soundproof canopy, built on a skid or be installed in an ISO 20 foot steel container.

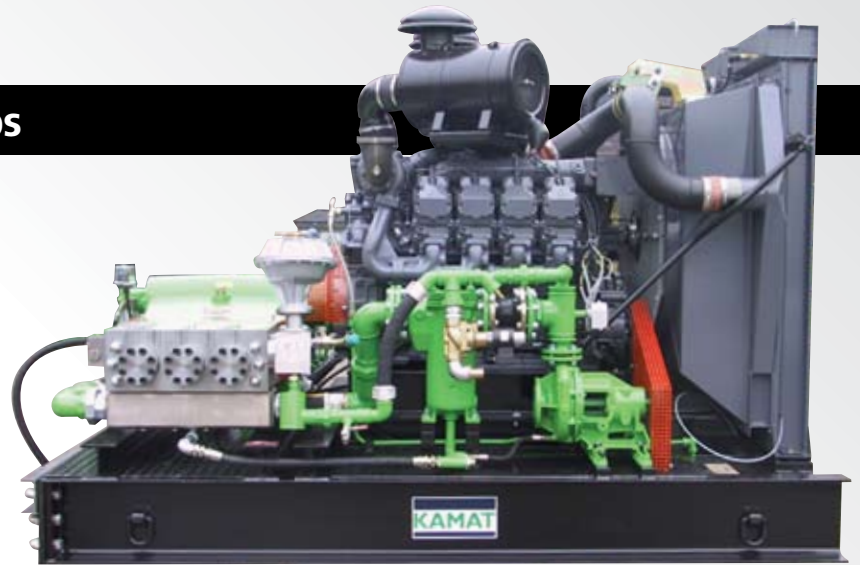

KAMAT high pressure pumps can be used in a variety of applications and industries and are built to provide thousands of hours of useful life. These rugged pumps work under the toughest conditions.

Heavy-Duty Gear Drive Pumps

KAMAT high-pressure pumps can be used in a wide range of applications and industries.

APPLICATIONS

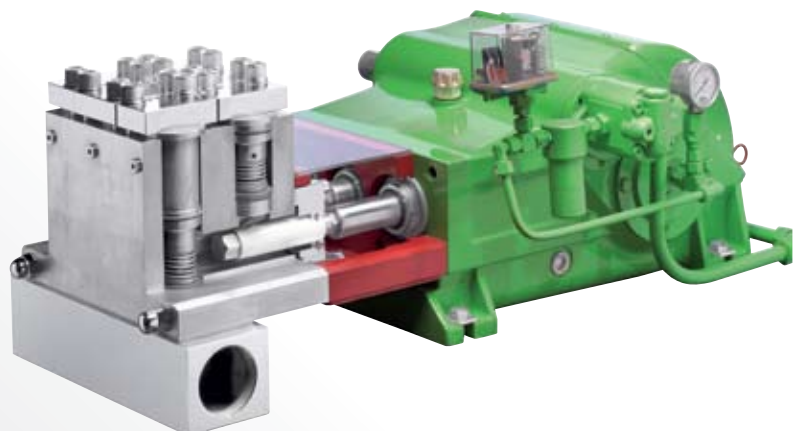

- Sewer and pipe cleaning
- Pipe line testing
- Filter cloth washing
- Municipal cleaning
- Reverse Osmosis
- Offshore rigs and oil fields
- Longwall and coal mining
- Power stations
- Industrial/water hydraulics

INDUSTRIES SERVED

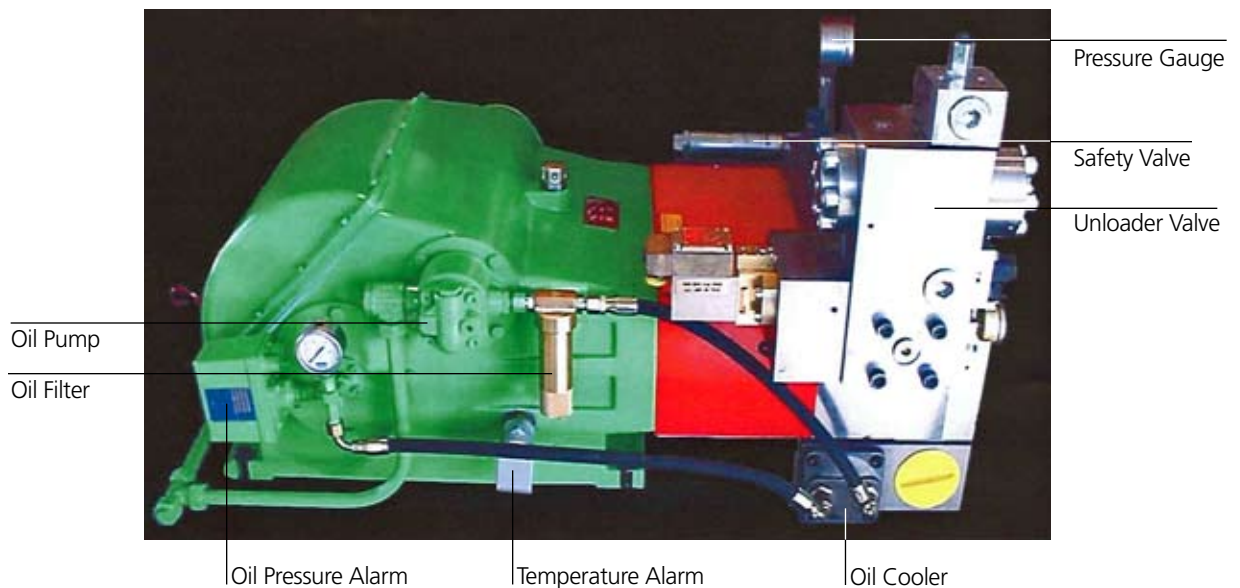

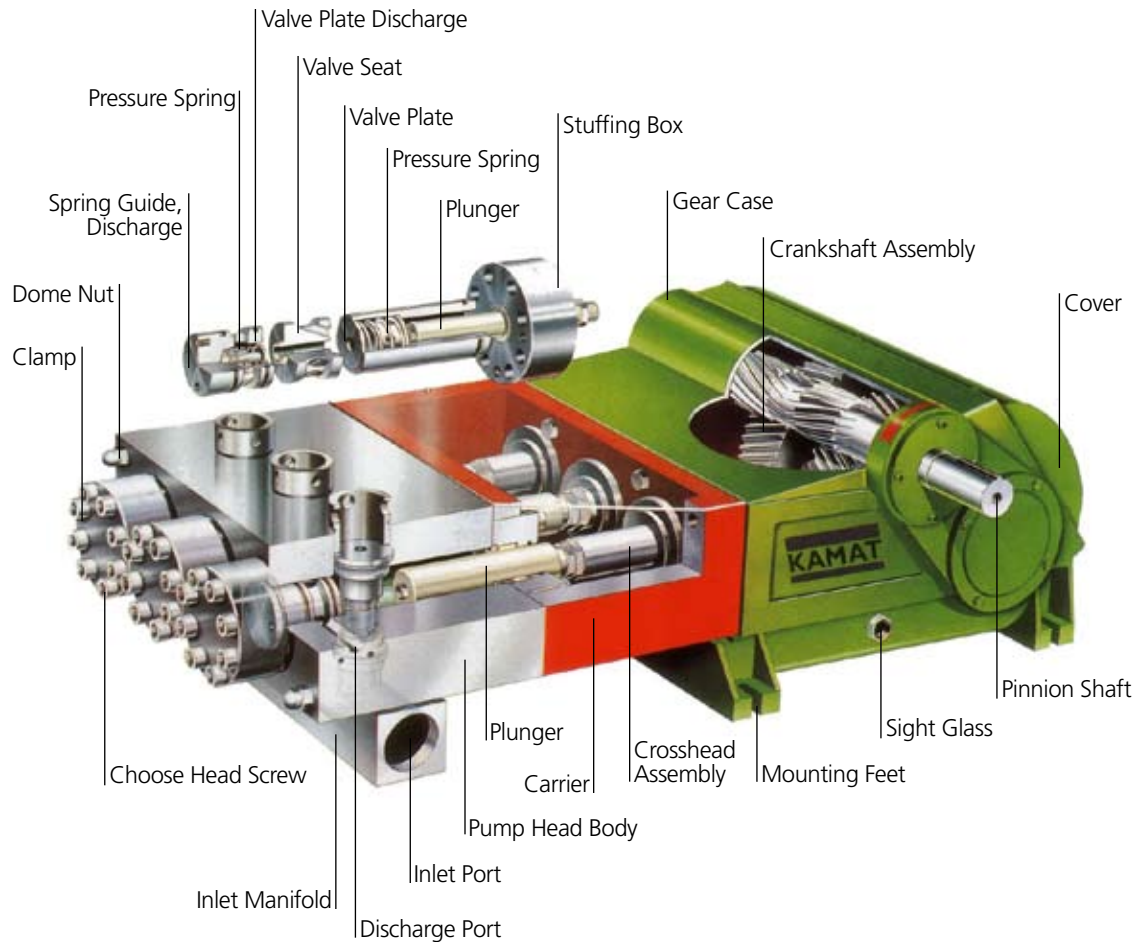

- Aerospace
- Automobile
- Chemical
- Concrete
- Construction
- Food processing
- Iron
- Marine
- Steel
