For information on intermittent operation and calculating of the performance data, see page 2.

## NPSHR / Inlet pressure

Required NPSH refers to water at 68°F (20°C) at maximum permissible pump speed.  
Maximum inlet pressure: 29 PSI (2 bar)

## Level of noise emission

Emission sound pressure level: ≤ 84 dB(A)

## Fields of application

The fields of application of these pump types correspond to the specifications in the assembly instructions Giant Industries.

## Ambient conditions

Ambient temperature: 40°F < T<sub>Amb.</sub> < 86°F  
Ambient temperature: 5°C < T<sub>Amb.</sub> < 30°C

## Oil filling

- Filling quantity: 0.79 gal (3.0 L)
- Quality: Industrial gear oil **ISO VG 220** (e.g. Aral Degol BG220) or automotive gear oil **SAE 90 GL4 (Giant's p/n 01154)**
- Intervals: first oil change after **50 operating hours** then every **500 operating hours**, but at the latest after **12 months**.

## Installation/ Putting into Operation

### Shaft protector

When the pump is in operation, the open shaft end must be covered up by shaft protector (21), the driven shaft side and coupling by a bell housing.  
To cover the exposed crankshaft end with the shaft guard (21) together with the holder (21A) onto the bearing cover screws (17).

### Direction of pump rotation

Set the direction of rotation of the drive unit according to the direction of rotation arrow on the crankcase.

### Suction line filter

Recommended mesh size 150 µm.

### Materials Used

Valve Casing: Alu-Bronze  
Plunger: Solid Ceramic  
Valves: High-Grade Stainless Steel  
Seals: Nitrile with fabric reinforcing  
O-Rings: Nitrile

# LP121 Repair Instructions

## Maintenance and Servicing

For the type of threadlocker used and the required tightening torques, observe the table below.

## Special tools required

The following special tools are required for assembly:

- Pull-out tool size 3 (Ø22)

## Suction and Discharge Valves

Remove tension plugs (48) and remove tension spring (45).

Take out discharge valves (46), pulling them upwards out of the valve casing (43) with snap-ring tongs or any other pull-off device.

Then remove suction valves (46) in the same way. Loosen valve seats (46A) from spacer pipe (46D) by lightly hitting the valve plate (46B) with a plastic stick.

Check sealing surface and replace worn parts. Reassemble preferably with new O-rings (44A) and support rings (44B) and oil them before installing. Tighten tension plugs (48) to the required torque.

## Seals and Plunger

Loosen the 8 nuts (49A) and pull off valve casing (43) to the front.

Pull seal sleeves (35) out of guides in crankcase (1). Remove seal case (37) and tension spring (42) from seal sleeve (35).

Check plunger (29B) surface and seals (36/40). Replace worn seals.

If plunger pipe (29B) is worn out, loosen tension screws (29C) and pull off plunger pipe to the front.

Clean front surface of plunger (25) thoroughly.

Then place new plunger pipe (29B) carefully through the oiled seals (36/40).

Push seal sleeve (35) with plunger pipe (29B) into the crankcase guide.

Turn gear until the plunger (25) comes up against the plunger pipe (29B).

Put a new copper gasket (29D) onto tension screw (29C). Put a thin coat of threadlocker on the gasket and tighten screw to the required torque.

Under no circumstances should threadlocker get between the plunger pipe (29B) and the centring sleeve (29A). Tensioning of the plunger pipe due to eccentric tightening of the tensioning screw or due to dirt or damage to the contact surface can lead to breakage of the plunger pipe.

Tighten the fixing nuts (49A) for the valve casing (43) evenly to the required torque.

**If required, supplementary assembly instructions can be requested from the manufacturer Giant Industries.**

## Malfunctions / Remedy

For informations, see assembly instructions GIANT PLUNGER PUMPS.

## Materials Used

- Valve Casing: Aluminum-Bronze
- Plunger: Solid ceramic
- Valves: High-Grade Stainless Steel
- Seals: Nitrile with fabric reinforcing
- O-Rings: Nitrile

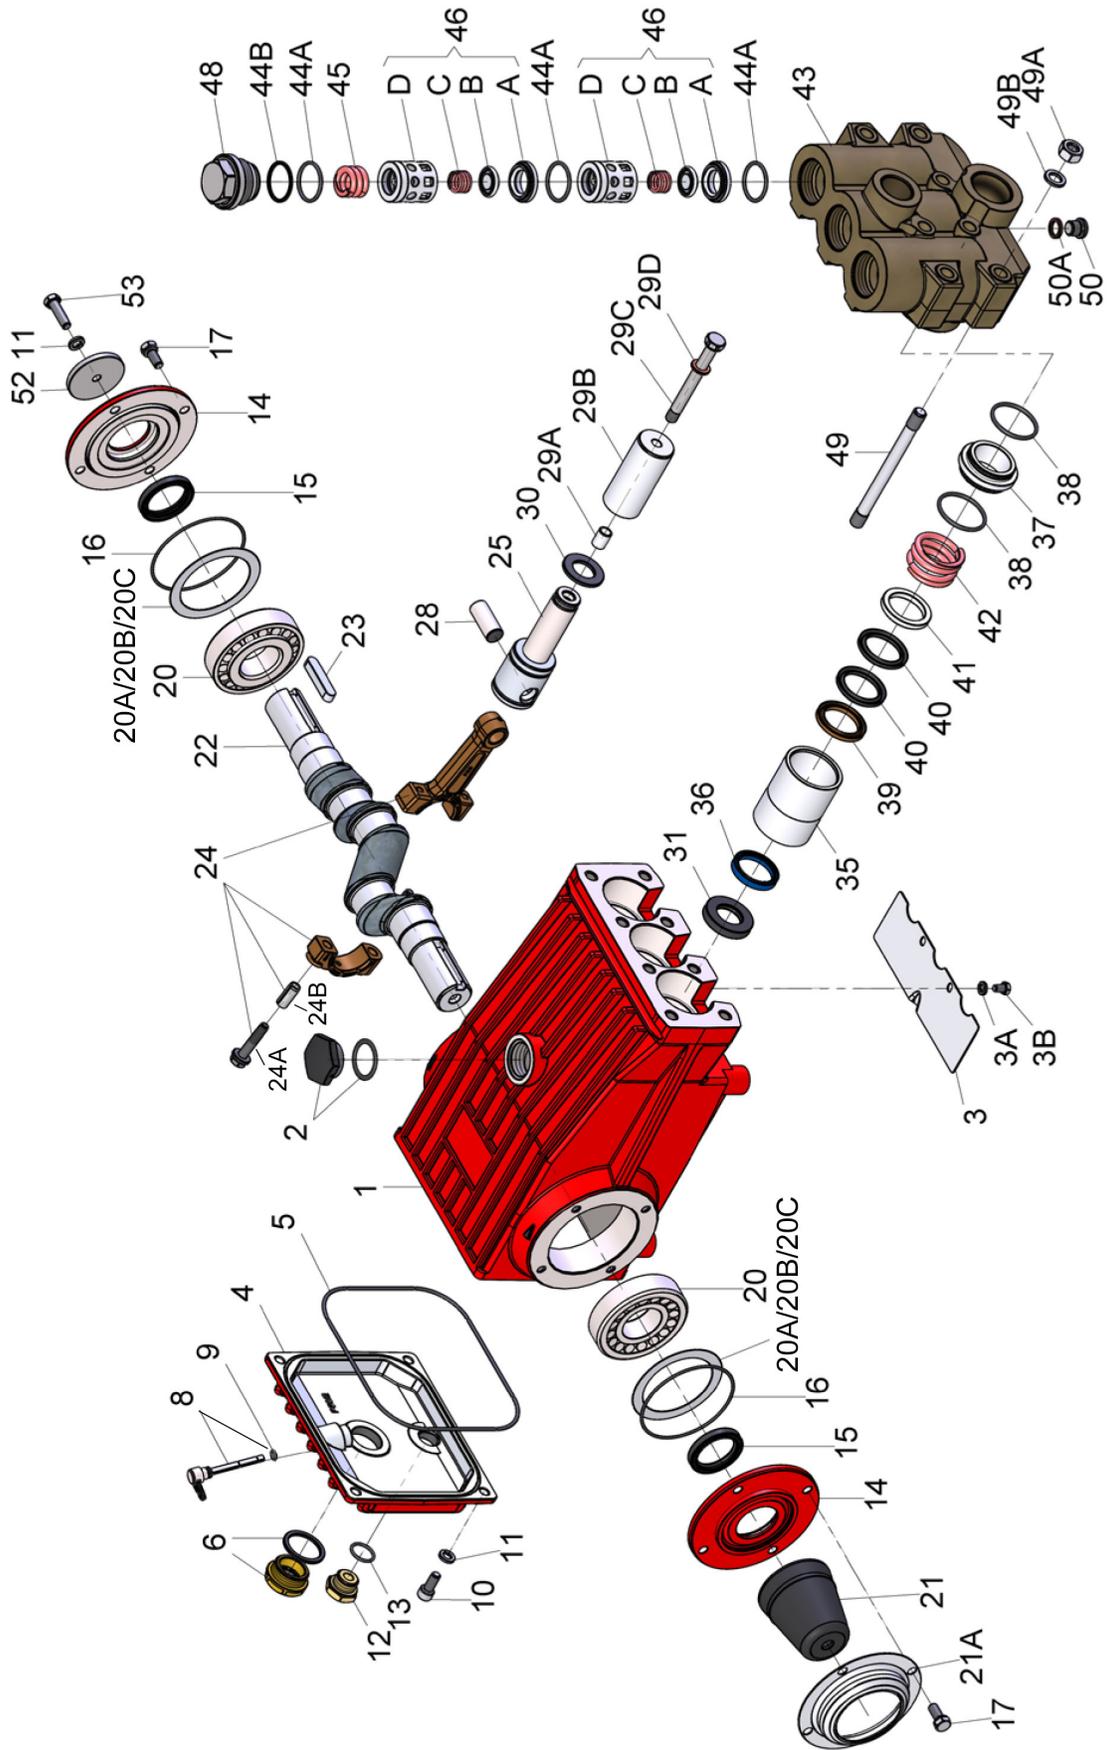

## Paint

The pump drive is painted in RAL 3001 as standard.

## GIANT INDUSTRIES LIMITED WARRANTY

Giant Industries, Inc. pumps and accessories are warranted by the manufacturer to be free from defects in workmanship and material as follows:

1. Five (5) years from the date of shipment for all pumps used in portable pressure washers with NON-SALINE, clean water applications.
2. Two (2) years from the date of shipment for Giant pumps used in car wash applications.
3. One (1) year from the date of shipment for all other Giant industrial and consumer pumps.
4. Six (6) months from the date of shipment for all rebuilt pumps
5. Ninety (90) days from the date of shipment for all Giant accessories.

This warranty is limited to repair or replacement of pumps and accessories of which the manufacturer's evaluation shows were defective at the time of shipment by the manufacturer. The following items are NOT covered or will void the warranty:

1. Defects caused by negligence or fault of the buyer or third party.
2. Normal wear and tear to standard wear parts.
3. Use of repair parts other than those manufactured or authorized by Giant.
4. Improper use of the product as a component part.
5. Changes or modifications made by the customer or third party.
6. The operation of pumps and or accessories exceeding the specifications set forth in the Operations Manuals provided by Giant Industries, Inc.

Liability under this warranty is on all non-wear parts and limited to the replacement or repair of those products returned freight prepaid to Giant Industries which are deemed to be defective due to workmanship or failure of material. A Returned Goods Authorization (R.G.A.) number and completed warranty evaluation form is required prior to the return to Giant Industries of all products under warranty consideration. Call (419)-531-4600 or fax (419)-531-6836 to obtain an R.G.A. number.

Repair or replacement of defective products as provided is the sole and exclusive remedy provided hereunder and the MANUFACTURER SHALL NOT BE LIABLE FOR FURTHER LOSS, DAMAGES, OR EXPENSES, INCLUDING INCIDENTAL AND CONSEQUENTIAL DAMAGES DIRECTLY OR INDIRECTLY ARISING FROM THE SALE OR USE OF THIS PRODUCT.

THE LIMITED WARRANTY SET FORTH HEREIN IS IN LIEU OF ALL OTHER WARRANTIES OR REPRESENTATION, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTIES OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE AND ALL SUCH WARRANTIES ARE HEREBY DISCLAIMED AND EXCLUDED BY THE MANUFACTURER.

**WARNING:** This product might contain a chemical known to the State of California to cause cancer, and birth defects or other reproductive harm.
