\*The operating pressure should be reduced to 100 bar when teflon seals (31) are used as higher pressure on teflon leads to reduced service life.

## Installation Instructions

Performance data shown is for intermittent operation.  
For continuous operation, consult Giant.

### NPSHR / Inlet pressure

Required NPSH refers to water at 68 °F (20°C) at maximum permissible pump speed.  
Maximum inlet pressure: 29 PSI (2 bar)

### Level of noise emission

Emission sound pressure level: ≤ 78 dB(A)

### Ambient conditions

Ambient temperature: 41 °F < T<sub>Amb.</sub> < 86 °F  
Ambient temperature: 5°C < T<sub>Amb.</sub> < 30°C

### Oil

- Filling quantity: **12.5 fl. oz. (0.37 l)**
- Quality: Industrial gear oil **ISO VG 220** (e.g. Aral Degol BG220) or automotive gear oil **SAE 90 GL4 (Giant's p/n 01154)**
- Intervals: first oil change after **50 operating hours** then every **1000 operating hours**, but at the latest after **12 months**.

### Installation/ Putting into Operation

#### Shaft protector

When the pump is in operation, the open shaft end must be covered up by shaft protector (17), the driven shaft side and coupling by a bell housing.

#### Direction of pump rotation

Set the direction of rotation of the drive unit according to the direction of rotation arrow on the crankcase.

#### Suction line filter

Recommended mesh size 150 µm.

# P55-5121 and P56-5121 PUMP REPAIR INSTRUCTIONS

## Maintenance and Servicing

For the type of threadlocker used and the required tightening torques, observe the table below.

## Special tools required

The following special tools are required for assembly:  
- Pull-out tool Size 1 Ø15 / Ø12 mm

## Suction and Discharge Valves

Screw out plugs (41).

Take out suction valve adaptor (39) together with suction valve.

Push valve parts out of suction valve adaptor using a soft tool. Check and replace worn parts.

Check O-rings (38,40,42) and replace as necessary.

Tighten plugs (41) to the required torque.

Take care to reassemble in correct sequence.

## Seals and Plunger

Screw out plugs (41).

Loosen nuts (46) and remove valve casing from plungers, pulling it out to the front.

Take out suction valve adaptor (39), tension spring (33) and seal-unit (30, 31, 32).

Check surfaces of plunger pipes as damaged surfaces cause fast wear to the seals.

Check O-rings (40, 42) and V-sleeve (31) and replace as necessary.

When replacing, wet new seals and O-rings thinly with silicone grease or mineral oil and insert carefully.

Pay attention to the installation position of the seals.

If plunger pipe (24A) has to be replaced, loosen tension screw (24B) and remove it together with the plunger pipe. Check and clean plunger (22) surfaces and install new plunger pipe.

Cover thread of tension screw (24B) with a fine film of thread-locker and tighten carefully to the required torque.

Under no circumstances should thread-locker get between the plunger pipe (24A) and the centering neck on the plunger (22). Tensioning of the plunger pipe due to eccentric tightening of the tensioning screw or due to dirt or damage to the contact surface can lead to breakage of the plunger pipe.

Install tension spring (33) and suction valve adaptor (39), then tighten plug (41) to the required torque. Fix valve casing by tightening nuts (46) evenly to the required torque.

**If required, supplementary assembly instructions can be requested from the manufacturer Giant Industries, Inc.**

## Spare Parts

When **ordering spare parts**, please specify **pump type, pump number, year of manufacture, and spare parts code no.**

This data can be found on the nameplate and in the spare parts list.

## Materials Used

Valve Casing: AISI 316L

Plunger: Solid ceramic

Valves: High-Grade Stainless Steel

Seals: Teflon

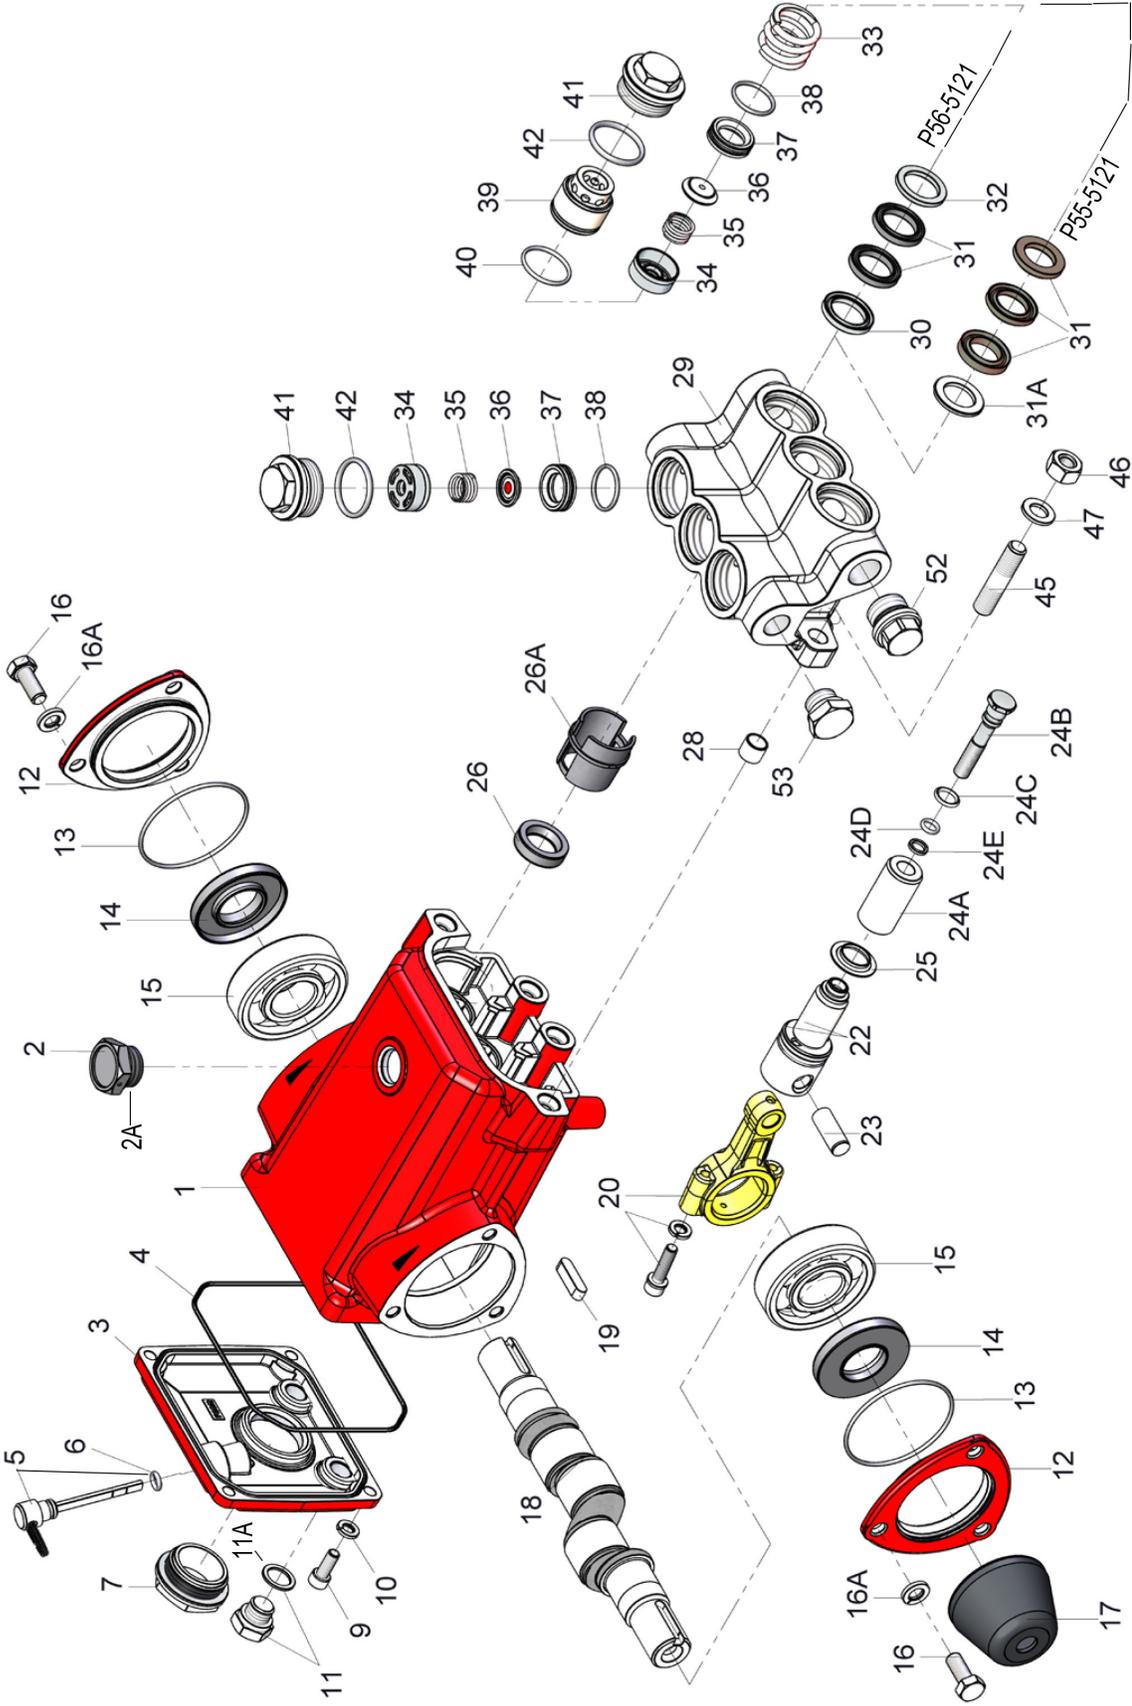

O-Rings: Viton

## Paint

The pump drive is painted in RAL 3001 as standard.

## GIANT INDUSTRIES LIMITED WARRANTY

Giant Industries, Inc. pumps and accessories are warranted by the manufacturer to be free from defects in workmanship and material as follows:

1. Five (5) years from the date of shipment for all pumps used in portable pressure washers with NON-SALINE, clean water applications.
2. Two (2) years from the date of shipment for Giant pumps used in car wash applications.
3. One (1) year from the date of shipment for all other Giant industrial and consumer pumps.
4. Six (6) months from the date of shipment for all rebuilt pumps
5. Ninety (90) days from the date of shipment for all Giant accessories.

This warranty is limited to repair or replacement of pumps and accessories of which the manufacturer's evaluation shows were defective at the time of shipment by the manufacturer. The following items are NOT covered or will void the warranty:

1. Defects caused by negligence or fault of the buyer or third party.
2. Normal wear and tear to standard wear parts.
3. Use of repair parts other than those manufactured or authorized by Giant.
4. Improper use of the product as a component part.
5. Changes or modifications made by the customer or third party.
6. The operation of pumps and or accessories exceeding the specifications set forth in the Operations Manuals provided by Giant Industries, Inc.

Liability under this warranty is on all non-wear parts and limited to the replacement or repair of those products returned freight prepaid to Giant Industries which are deemed to be defective due to workmanship or failure of material. A Returned Goods Authorization (R.G.A.) number and completed warranty evaluation form is required prior to the return to Giant Industries of all products under warranty consideration. Call (419)-531-4600 or fax (419)-531-6836 to obtain an R.G.A. number.

Repair or replacement of defective products as provided is the sole and exclusive remedy provided hereunder and the MANUFACTURER SHALL NOT BE LIABLE FOR FURTHER LOSS, DAMAGES, OR EXPENSES, INCLUDING INCIDENTAL AND CONSEQUENTIAL DAMAGES DIRECTLY OR INDIRECTLY ARISING FROM THE SALE OR USE OF THIS PRODUCT.

THE LIMITED WARRANTY SET FORTH HEREIN IS IN LIEU OF ALL OTHER WARRANTIES OR REPRESENTATION, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTIES OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE AND ALL SUCH WARRANTIES ARE HEREBY DISCLAIMED AND EXCLUDED BY THE MANUFACTURER.

**WARNING:** This product might contain a chemical known to the State of California to cause cancer, and birth defects or other reproductive harm.
